

January 2025 Newsletter

We kicked off the new year with an engaging **hands-on glaze-making workshop** led by **Heather Couch** at Palm Beach Atlantic University. This workshop was a fantastic opportunity to dive deeper into the art of creating custom glazes, a skill that brings a personal and creative touch to pottery.

The event welcomed **18 participants**, including some new faces, which made for a lively and dynamic atmosphere. Heather began with a comprehensive slideshow, walking participants through both the basics and more advanced aspects of glazing. The interactive session encouraged a lot of thoughtful questions, allowing everyone to learn from one another as well as from Heather.
